POLYETHYLENE SCREW FITTINGS

Introduction

Iran is one of the countries of Southwest Asia (Middle East) with Afghanistan and Pakistan in the east, Turkmenistan in the northeast, the Caspian Sea in the middle in the north, the Republic of Azerbaijan and Armenia and Turkey in the northwest, Iraq in the west and finally It is bordered to the south by the waters of the Persian Gulf and the Sea of Oman.

The Islamic Republic of Iran due to its large population, political stability, potential economic resources and most importantly having the largest coast of the Persian Gulf and dominating the strategic Strait of Hormuz and its connection to Central Asia and the Caspian Sea, as a bridge between Asia, Europe and Africa. It is of great geopolitical importance and can take the necessary measures to increase the exchange of goods. Therefore, with more than two thousand kilometers of coastline from the mouth of the Arvand River to the port of Goatherd, in addition to dominating the waterways leading to the Indian Ocean, it is the only country that can transport various export products by land to many parts of the world.

Keep in mind that Iran has been a member of free trade with Eurasia since October 27, 2019, and Eurasia is Iran's new partner. This is an important advantage for Iran because these countries are also consumerist countries and Iran as a producing country can easily export its goods to these countries. Central Asian countries, India, Pakistan and Afghanistan are also consumerist countries and most importantly like Iranian goods.

These two cases are enough to consider Iran as one of the main suppliers of polyethylene screw fittings in the region. In the meantime, we can mention Iran's good and friendly relations with the CIS countries, which will cause economic prosperity in all countries. There are also some countries, such as Ukraine and other Eastern European countries, for which buying Iranian goods is not very expensive. In addition, the quality of Iranian goods has been approved by many countries in the region and the world.

Iran's convenient geographical location speeds up the transfer of goods and communication, and this speed and time savings in trade is very valuable. Iran is in the middle of the world.

Compared to European countries, we can deliver goods in the fastest time. Central Asian countries can also easily receive our export goods. This is while a country like China does not have our position, but it has made excellent use of its existing capacities.

So Iran's first advantage in trade with the world is that this land has a strategic position in the Middle East.

Another very important advantage of Iran's exports compared to other countries is the very low cost of labor wages. This teaches us to work for the export of goods in which the wages of the worker (ie manpower) are very low. The more effective this cost is on the cost of that commodity, the more competitive that commodity has in the export market.

One of these goods can be considered the polyethylene screw fittings field in Iran.

So with these interpretations, we can open a special account on Iran in the purchase and export of polyethylene screw fittings.

About Us

Pepipeshop Company, with the aim of producing and selling all kinds of polyethylene screw fittings products, which started its activities in the field of domestic market and export with the cooperation of Arad Holding, to expand its activities throughout the cities of Greater Iran, will flourish in the Persian Gulf, in neighboring countries and in the global market.

It will take a step towards achieving its vision goals and will have effective and position-building trade for the sustainable supply of advantageous and quality products. And to become the most reliable, popular, active and profitable trading company with expert activity, it expands its business not only in the domestic field but also in international markets.

Goals

Pepipeshop Trading Company, in addition to following the principles of international trade and adhering to the regulations of each country's trade regulation, is obliged to act separately in maintaining customers' products and secrets and providing services based on the principle of customer orientation.

Based on these principles, the goals and visions of this company are summarized as follows.

- Export and import of the best and highest quality polyethylene screw fittings products in domestic markets and the Persian Gulf and international markets.

1- Focus on product sales policy with the advice of the best large holding Arad

2- Specializing the company's activities by using the power of other companies to raise the level of production and technology

3- Raising the level of quality and quantity of products and services to achieve the demands of customers

4- Reducing incidental costs and cost of products

5- Expanding the polyethylene screw fittings market and developing the supply and production cycle of various products

6- Scientific marketing and creating new markets at the same time as entering foreign and international markets

7- Communicating with well-known and approved manufacturers to improve the sales level by using new methods

8- Gaining customer satisfaction by accelerating and facilitating the sales process for them

Message from chief executive officer

Customer satisfaction can be an effective result for the future work of any individual and organization. Major and retail customers in the field of polyethylene screw fittings are always looking for quality and unique products with appropriate packaging.

Creating the necessary infrastructure to perform this process can be considered as achieving the goals of any company. Therefore, respecting customer demand from any country can increase the field of work.

The many years of experience of this company and the experiences gained in recent years have caused any type of product in the field of polyethylene screw fittings to be provided to esteemed buyers according to the company's goals in terms of high quality and quantity.

Mission

- Establish the widest online trade network, international polyethylene screw fittings products in global markets
- Value
- Honesty
- Customer Orientation
- Commitment to the best quality, lowest price and timely delivery of goods
- Always follow the standard of the product

Working conditions

1. Ability to send samples of catalog products and brochures through social networks and email.
2. Possibility of sending cargo by freight, Tipax or post for domestic customers as well as foreign customers by air, sea or land according to the destination country.
3. Payment of costs taking into account the conditions, win-win for the customers of the manufacturers.

Our products

Polyethylene fittings are used to connect two polyethylene pipes to each other and to connect valves and take a branch in the polyethylene pipeline.

Threaded joints are joints that connect polyethylene pipes together without the need for welding. These connections are commonly used for irrigation systems and irrigation of agricultural lands and gardens.

And are required in large numbers in irrigation systems, these connections are produced by injection.

These connections are used very quickly and without the need for a polyethylene welding machine.

Services

1. Free consultation to purchase products and quality and other information
2. Possibility of immediate shipment to all parts of Iran and export to other countries without any restrictions.
3. According to the contract, it is one of our obligations and we will not spare any effort in this way to satisfy our customers.

Product delivery

Iran has several sea, air and land borders. Due to the volume of orders, priority is given to sending products through land and sea borders. Of course, according to the final destination, our experts will consider the best method and route for the delivery of goods, so according to the volume of the order, the method of sending and delivering cargo may have some changes.

Therefore, the company's priority for exchanging goods by sea is CIF, FOB methods and exporting goods through land borders, FCA and EXW methods. Also, share the method of delivery of your goods with us so that the result will be announced to you after reviewing.

A person's hands are shown holding a tablet computer. The background is a dark blue world map with several white location pins and glowing green lines radiating from the tablet, suggesting global connectivity and digital technology. The overall color scheme is monochromatic blue and green.

Payment methods

Due to having multiple foreign currency accounts in the names of different companies and individuals, we offer you a cash deposit method. If you have another method for your payment, inform the relevant expert so that you can be informed of the final opinion if the collection management decisions.
